

With over 65 Megawatts of solar energy installed, Solect is a leading commercial solar developer and installer in Massachusetts.

Smart Solar. Smart Business.

Solect is a full-service solar photovoltaic (PV) project developer and installer based in Hopkinton, Massachusetts, delivering smart solar and energy management solutions to help businesses and organizations reduce energy costs. As an industry leader in commercial-scale solar energy, Solect takes a practical approach to the development, installation and on-going support of each system. We partner closely with our customers, providing strong financial insight and solar technology expertise to optimize their investment while creating a positive impact on the environment. Solect currently has installed over 65 MW (megawatts) of commercial PV systems, with a primary focus on commercial, light industrial and institutional properties in New England.

Trusted Partners

Solect owns and operates several solar PV systems and we understand what it's like to go through the financial and installation process firsthand. This unique perspective allows us to properly assess a project's feasibility from the customer's point of view, ensuring that it's in the best interest of the customer and the community. Our collaborative and practical approach of developing smart solar solutions ensures reliable results that best fit our customers' needs, earning Solect a reputation for integrity and quality.

Solar Made Simple

Solar incentives and regulations are constantly changing and often complex. Solect makes the process of installing solar easy to understand, and our customers tell us we do a great job at simplifying the economics of solar.

Turn-key Solutions

Solect delivers complete solar energy solutions that simplify the decision-making process for property owners. Our expert team has extensive experience in solar energy financing, regulatory filing, engineering and design, installation, and ongoing system operations and maintenance. We work with clients from start to finish and maintain a partnership for the average 25+ year life of the solar system.

We work with clients from start to finish and maintain a partnership for the 25+ year life of the solar system.

Reliable Results

Solect has a strong track record of developing solar energy systems that meet or exceed the electricity production goals and ROI expectations of our customers. Many of our customers convey their confidence in our results by installing their second and third solar systems with Solect.

Local Service & Support

Based in Hopkinton, MA, Solect is quick to respond to your needs with timely service and support. We respond to all service calls within 48 hours or less.

Solar Power with a Purpose: Business Beyond Profit

At Solect, it's not just business as usual. We believe that good business goes beyond profit. Good business – smart business – means focusing on the triple bottom line:

people

Solect is committed to our employees, customers and community. We're dedicated to establishing long client relationships and creating local jobs.

planet

Solar energy is clean, renewable and abundant. When you invest in solar energy, you're investing in the future – for all of us.

profit

Businesses across a wide range of industries are investing in solar energy to save money and generate new revenue.

Solar energy continues to grow in the Northeast as incentives and attractive pricing on equipment and installation make investing in solar energy a smart business decision.
